 Supply Chain 2012 builds upon the success of last year's conference.

The Supply Chain 2011 conference achieved a record turnout of participants in multiple disciplines from across the space industry and suppliers, NASA and other agencies. Praise from participants included the following:

“I applaud the program designers for bringing in fresh perspectives.”

“Glad to see the variety of topics covered and excellent speakers.”

“The conference overall was a great success. Lots to take away. Networking is always valuable.”

Presentations and photos from Supply Chain 2011 and previous years are available and in the Prior Years and Gallery sections.
