

Supplier Product Information Management and Analytics

Dennis Coffey

Director

Naval Sea Logistics Center - Portsmouth

Supplier Performance Risk System (SPRS)

- Provides supplier performance scores and procurement risk analysis
 - Delivery and Quality scores based on objective historical performance information
 - Price, Item, and Supplier Risk assessments
 - Market Research, Supplier Surveillance, and Dynamic Item Risk
- Targeted for use by DoD Government Contracting and Specialists
- Contractors (vendors/suppliers) may access and challenge their own data within SPRS

Colors based on confidence in Average Price

The screenshot shows a detailed view of a market research report. At the top, there are search filters and a 'Search:' box. Below that, a table lists various specifications and requirements. A 'Purchase History' section contains a table with columns for 'Date of Purchase', 'Unit Price', 'Average Price', and 'Average Price Comparison'. This table is color-coded, with 'FIRST DATE' in red, 'LOW' in yellow, and 'HIGH' in green. Below the table is a 'Purchase History' line graph showing price trends over time. At the bottom, there is a 'Supplier History' table with columns for 'Supplier', 'Quantity', 'Unit Price', 'Average Price', and 'Average Price Comparison', also color-coded.

Summary

- SPRS is a web-enabled enterprise application that gathers, processes, and displays data about the performance of suppliers.
- SPRS enables procurement specialists:
 - To avoid overpaying for supplies
 - With awareness of specific risks and risk mitigations.
 - With a composite score that considers each supplier's historical performance in the areas of Delivery and Quality Performance as well as Price, Item, and Supplier Risk assessments.
- <https://www.sprs.csd.disa.mil/>

NSLC Supplier Management Programs

Technology that Improves Supplier Performance and Drives Supply Chain Savings and Cost Avoidance

PDREP Product Data Reporting and Evaluation Program

- PDREP provides DON compliance for processing and managing supplier performance information
- Deficiency / Discrepancy Reporting (PQDR / SDR), Receipt Inspection Management System (RIMS), enterprise warranty data, counterfeit prevention
- Features provide \$100M+ annually to DON/DOD in repaired, replaced or credited items

SPRS Supplier Performance Risk System

- Provides risk detection capabilities to identify suppliers who have previously provided the DoD with counterfeit and nonconforming material
- Predicts future outcomes based on supplier past performance data
- New features provide estimated \$230M annual supply chain cost avoidance

CPARS Contractor Performance Assessment Reporting System

- Single authorized Federal application to enter contractor performance information for use in source selections above the simplified acquisition level
- PPIRS provides contractor past performance (CPARS) information to the acquisition community for use in making source selection decisions

FAPPIIS Federal Awardee Performance and Integrity Information System

- Collects contractor and grantee exclusion data including Terminations, Defective Cost and Pricing, Determinations of Non-Responsibility, Recipient Not Qualified, DoD Contractor Fault and Administrative Agreements

SPRS Risk Analysis Tools!

Risk Analysis Tools provide procurement analysts and contracting officers with the ability to better assess supplier risks associated with material and supplier performance

- **Price Risk:** Avoid overpaying by evaluating the fairness and reasonableness of a supplier's price offers
- **Item Risk:** Reduce counterfeit material of high risk items identified in the Federal Logistics Information Service Program (FLIS), Critical Application Items (CAI), Critical Safety Items (CSI), and Diminishing Manufacturing Sources and Material Shortages (DMSMS)
- **Supplier Risk:** Identify risk through a composite score that is derived by using objective DoD supplier performance information
